EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eugene Lieberstein on January 8, 2009.

The application has been amended as follows:

Claim 10 is cancelled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

3. The closest prior art of reference is taught by Eun et al. (US 2006/004541) and Kondo et al. (US 2002/0048076).

Eun et al. teach preparing a ferroelectric single film structure, comprising a material with the same composition as to the material disclosed in claim 14 of the present invention (abstract; paragraphs 0014-0022). Kondo et al. teach preparing a traveling wave-type optical modulator by adhering a ferroelectric single crystal plate (1A – Fig. 1b, 4 – Fig. 1c) to a substrate (1B) with an epoxy-based resin film (3) (paragraphs 0021, 0022, 0056, 0064, and 0076; Figure 1b and 1c).

4. However, the prior art does not teach preparing a ferroelectric single crystal film structure by: preparing a ferroelectric single crystal plate and a silicon substrate; forming a silicon dioxide layer on the silicon substrate; applying a heat-

curable conductive adhesive layer on the silicon dioxide layer; laminating the single crystal plate on the adhesive layer; curing the adhesive layer by heat treatment to form a bottom electrode layer; polishing the single crystal plate to form a ferroelectric single crystal film; forming a top electrode layer on the single crystal film; polarizing the single crystal film to obtain a polarized ferroelectric single crystal layer; and etching the substrate, the top and bottom electrodes and the polarized single crystal layer in a desired pattern. Claim 10 was cancelled, since such did not properly further limit the scope of amended claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
